

Abimanyu Ananthu

📍 Colorado Springs, CO 💎 3+ Years Of Experience in abimanyuananthu 🌐 ab1manyu

Clearance and Certifications

Active DoW Top Secret	Jan 2026
CompTia Security+ Certification	Feb 2025

Experience

Software Engineer <i>L3Harris Technologies</i>	Jan 2024 – Current <i>Colorado Springs, CO</i>
--	--

U.S. SPACE FORCE ELECTROMAGNETIC WARFARE (EW) GROUND SYSTEMS

- Modernized the ISW (Infrastructure Software) by refactoring a Mission into **React** with **AstroUX** components, integrating **Cesium ion** to showcase real-time rendering of 3D geospatial assets
- Upgraded the user management page using **FreeIPA** on the current Space Force EW software
- Developed **Ansible Playbooks** for automating configuration process for custom hardware setups on CCS
- Published Interface Control Documents (**ICDs**) and Software Description Documents (**SDDs**), establishing standardized templates to streamline future development and review

U.S. SPACE FORCE (UEWR) UPGRADED EARLY-WARNING RADAR SYSTEMS

- Designed an analytics dashboard using **JavaScript** and **React** to showcase weekly data updates on radar calibration metrics, and implemented a **REST API** toolkit with **Python** for RMA calculations
- Implemented classified verification procedures in **MATLAB** to test system performance measures (TPMs)
- Conducted long term predictive trend analysis on UEWR calibration metrics, enabling proactive strategic planning and decision-making for Depot Maintenance action items

ENHANCED METRICS SYSTEM (EMS)

- Worked on an internal tool for measuring metrics and visualizing the data of SWE team performance

SDE Intern <i>Amazon Pharmacy</i>	Sept 2022 – Dec 2022 <i>Seattle, WA</i>
---	---

- Implemented prescription refill functionality from a monolithic system written in **Ruby On Rails** to a scalable microservice using **TypeScript**, enabling flexible integration with partner hubs and pharmacies

Software Engineering Intern <i>L3Harris Technologies</i>	May 2022 – Jul 2022 <i>Remote</i>
--	---

MEADOWLANDS SYSTEMS

- Contributed to the UI of IMTS (Instructor Management Training Suite) using **TypeScript** and **React**

Education

Georgia Institute of Technology <i>Masters of Science, Computer Science</i>	Jan 2026 - Current <i>GPA: 4.0/4.0</i>
---	--

Rutgers University – New Brunswick <i>Bachelor of Science, Computer Engineering and Computer Science</i>	Sep 2019 – Dec 2023 <i>GPA: 3.62/4.0</i>
--	--

- Courses:** Data Science, Machine Learning, Algorithms, Computer Architecture, Data Structures
